Services	Campus wide network
Applications	E-Mail Server with cluster , LDAP database
Number of Servers	2 (Master / Slave Fedora Directory server) , 4 node cluster of qmail and Samba Server over heartbeat 2.0 , Trend Micro Engine
Other Infrastructure	NAS drive for mailboxes and backups
Number of Domains	1
Number of users	~ 20000
Number of users added every year	~400-500 , depends on batched
Scalability	Upto 1,00,000 users
Expandability	None Planed
Server Uptime	100% till date
Components used along with the uasge	Nagios , phpldapadmin , qmail-mailing lists (~1000000 users)
Q-MAIL	MTA

Spam Engine	Trend Micro , Spamassassin
Anti Virus Engine	Clam-AV , Trend micro
Web mail	Squirrelmail
Clustering	Heart beat 2.0

About MDI

MDI has moved ahead on the path of success since its inception, and is among the country's top B-Schools today. Well on its way to become a truly global B-School, MDI has linkages with leading business schools across the world. Over the years, our students have joined well renowned corporations and done their alma mater proud with exceptional performances and great success in terms of placement.

The students of MDI are handpicked from the pool of brightest minds that the country has to offer. Strict criteria and a stringent admission process ensure that only the best enter the hallowed portals of this venerable institute. This pool of raw talent is meticulously groomed and rigorously trained in all aspects of management- be it academics, extra-curricular activities, team dynamics or leadership skills. MDI students come from diverse backgrounds, which in itself help them to examine managerial issues from multiple perspectives. In addition, an environment conducive to new ideas and sharing of knowledge helps in the development of a spirit of co-operation among students.
