Content Management System

Summary

It was in 1982, that PRIA came into existence. PRIA's founders believed in two principles of development:

Participatory Research is a process whereby the intrinsic value of people's knowledge is the basis for their own empowerment.

Participatory Development is a process whereby people are empowered to plan and implement their own development plans.

| | <h2>Aims/Objectives</h2> <p>To develop a content management system whereby new page creations, modification, edition could be done from admin section and dependency on the developer is finished.</p> |
| | <h2>Brief</h2> <p>PRIA is totally the dynamic site except some pages. Everything is controlled through the admin section of the site.</p> |
| | <h2>Technologies Involved</h2> <ul style="list-style-type: none">• Mysql with phpMyAdmin• Apache |
| | <h2>What did it achieve?</h2> <p>A cost effective yet efficient system which could achieve the growing need of the organization. Few major achievements</p> <ol style="list-style-type: none">a. Uploading of new images and video could be possible from admin sectionb. New pages can be created from admin section.c. Existing pages can be edited and modified in terms of text, layout and images.d. A high reliable, scalable and fast yet low cost solution built up on php. |
